

Dear California Pools & Spas, 10-19-05

I would like to thank all the GREAT Job Guyz! THX SHOULD BE EVERYONE the - !  
building of my pool and spa possible. David Foster,  
the Design Consultant whose design looked exactly as it  
appeared on the design. David listened and took the  
time to design the pool that I envisioned

I would like to thank all the people behind  
the scenes. The plaster crew, tile crew, decking crew, the  
man that delivered my pool equipment. The receptionist in  
the office who always handled my calls. And anyone else  
that was involved that I'm not aware of. The rock  
people that came down from Arizona to build my  
waterfall.

But mostly Steve Natal. He was there  
above and beyond answering my questions and addressing  
my concerns long after my pool was built. Thanks Steve.

I have to tell you that I love my Ca Pool and  
use it regularly. I still walk out to my backyard just to  
look at it. I could not be happier and I look forward to  
many years of enjoyment.

Thank you,

Twila
